----------------------------	---------------------------------

I am working on the oil and gas industry for nineteen years as a (Drilling Materials / Rig Material Man / Material Supervisor / SAP Material Cataloguer / Logistic Material Coordinator) I believe I could successfully apply my experience in any activity that could meet my skills if available. I acquired a long experience which allowed me to have the following skills: ? Manage the control of Material flow for warehouses. ? Manage the control of Drilling materials for completion and workover activities at the well site. ? Drilling stock management ? Contribute to the Stock inventory ? SAP user "MM module" ? Materials Cataloguer (Codifier) ? Material Controller (Controls the inventory of equipment on the well site ? Team working skills interfacing with various departments and companies using initiative, planning, proactive approach and self-motivation to effectively managing variable workloads. ? Respect HSE standards of Operation & Drilling and always consider health and safety primary importance in every task taken in the daily operations. ? Apply the company's safety Golden Rules, policies and procedures ? Able to work on own initiative and a team leader willing to be flexible and cooperative.

January 2019: SAP "MM Module" ? March 2013: Develop your leadership ? December 2010: Enhanced Communication ? June 2010: Directional & Horizontal Drilling (IFP – France) ? April 2009: Drilling Practices (Petroskills - UK)
