Roles and Responsibilities	Additional Skills/Certification
Solid engineering background with great operational exposure in onshore and offshore, leading teams with exemplary HSE track record, no well control events for both client and contractor in fast paced environments of drilling, completion and well testing. Drilled HPHT wells, ERD, while using MPD, smart completions and subsea completions on multiple oil and gas assets. Used casing drilling level 3, drilled multilateral wells equiped with selective smart completions. Worked on heavy 700ton rigs, 2500Horse power with 15k BOP stack, drilling through salt as well as depleted carbonates, where mud capping was necessary as well as controlling mud weight through a very narrow tolerance window. Offshore used mud line suspension systems to land and retrieve casing strings especially for exploration wells that were then Plugged and abandoned.	Well versed in directional drilling, BHA selection, mud system design, managed pressure drilling, stage cementing in HPHT conditions ensuring outstanding HSE performance
