Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Responsible for overseeing and implementing Health, Safety, and Environment (HSE) systems to ensure a safe, healthy, and environmentally responsible workplace. This role supports operational activities by ensuring full compliance with applicable laws, regulations, company policies, and international standards related to occupational health, safety, and environmental protection. Actively monitors daily operations to ensure safe work practices are followed by employees and contractors. This includes conducting routine site inspections, safety patrols, hazard identification, and risk assessments, as well as recommending and tracking corrective and preventive actions. The role also involves leading incident and near-miss reporting, investigations, and root cause analysis to prevent recurrence and improve overall safety performance. delivers HSE inductions, toolbox talks, and safety training programs to build workforce awareness and competence. They play a key role in promoting a positive safety culture by encouraging employee participation, safety campaigns, and proactive hazard reporting. The position also ensures that emergency response plans are implemented, drills are conducted, and preparedness levels are maintained.	NEBOSH International General Certificate
