## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Deliver HSE training and ensure compliance with Life-Saving Rules (LSR) at the workplace. Supervise high-risk activities and inspect subcontractor operations for safety adherence. Conduct internal audits, inspections, and detailed risk assessments for offshore activities. Develop and lead emergency response drills and safety training sessions for offshore personnel. Review and update offshore safety procedures in line with regulations and industry best practices. Monitor the implementation of the Permit-to-Work (PTW) system on-site. Oversee control measures for hazardous material usage. Perform the PTW audit regularly. Contributed to the development and execution of HSE policies, procedures and practices to maintain a secure and compliant work environment.

- Identified and assessed potentially hazardous conditions through proactive site surveillance and regular safety monitoring.
- Conducted comprehensive HSE audits, evaluating compliance and proposing corrective measures for continuous improvement in safety standards.
- Performed detailed risk assessments, developed safe operational procedures and identified strategies to minimize hazards in offshore operations.
- Supported the implementation of the HSSEQ Champion program, ensuring adherence to safety and environmental guidelines.
- Led vessel audits and safety inspections, managing follow-up actions to ensure that all safety requirements and operational standards were met.
