| Roles and Responsibilities | Additional Skills/Certification |
|--|--|
| Assessed safety culture and identified gaps in personnel risk perception, providing recommendations including site and personal development plans. Conducted site audits to identify compliance gaps with HSE management systems and client requirements, delivering practical improvement actions. Implemented one-to-one coaching and on-the-job training to close identified gaps. Developed and implemented change and improvement programs for HSE systems, focusing on frontline leadership, behavioral safety, intervention, competence assurance, and active learning from incidents and observations. Established implementation tools including checklists, KPIs, and performance metrics. Evaluated the effectiveness of safety training, observed workforce behaviors, prepared HSE reports, and coordinated closely with project teams. Maintained full compliance with safety and security procedures and accepted assignments across multiple locations as per client requirements. | NEBOSH IGC TTT APLO OSHA T. BOSIET H2S OBITO |
