## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

I am an experienced HSE professional with a strong background in implementing and enforcing HSE policies across drilling and oilfield operations. My role focuses on ensuring full compliance with company standards, international regulations, and best industry practices to maintain a safe and environmentally responsible workplace. I conduct comprehensive risk assessments and hazard identification studies, followed by effective mitigation measures to eliminate or reduce risks. I actively lead incident investigations, applying root cause analysis techniques to identify underlying issues and implement corrective and preventive actions to avoid recurrence. My responsibilities include overseeing drilling safety operations, monitoring high-risk activities, and ensuring proper control measures are in place. I play a key role in emergency preparedness and response by developing emergency plans, conducting drills, and ensuring all personnel are trained to respond effectively to emergencies. I regularly deliver toolbox talks and safety training sessions to promote safety awareness and strengthen the safety culture on site. Additionally, I perform safety audits and compliance inspections to verify adherence to HSE requirements and continuously improve performance. I am also involved in Environmental Impact Assessments (EIA) to minimize environmental risks and ensure sustainable operations. With strong expertise in lifting and rigging safety, I ensure all lifting operations are properly planned, supervised, and executed safely. I hold IWCF, NEBOSH, OSHA, and OPITO certifications, supporting my technical knowledge and professional competence in HSE management.

Certified HSE professional: IWCF Driller Level, NEBOSH IGC, OSHA, Advanced H2S, OPITO Gas Tester, Scaffolding Inspector, Rigging & Lifting, WAH, CSE, EIA, HSE Instructor, Rig Inspector, TOT, NIOSH, Risk Assessment.
