## Personal Information

<b>Candidate id</b>	5984
<b>Name</b>	Muhib Mohammed Shamsan Al-Akhali
<b>Date of Birth</b>	1979-01-01
<b>Salary (in USD)</b>	6750/Per Month
<b>Industry</b>	Drilling / Rig
<b>Sub Industry</b>	Drilling Manager
<b>Nationality</b>	Yemen
<b>Primary Language</b>	Arabic,
<b>Secondary Language</b>	English,
<b>Total Years of Experience</b>	21

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

I am a Senior Drilling Engineer and Wells Operations Team Leader with over 20 years of international experience in Iraq, Yemen, and Saudi Arabia, working with major industry leaders like Antonoil, OMV, and Schlumberger. My core responsibility involves the end-to-end delivery of complex HPHT, deep, horizontal, and exploration wells specifically within H2S and CO2 environments. I am an expert in bridging the gap between high-level engineering design and field execution to drive NPT reduction, cost efficiency, and safety compliance. My operational leadership extends to managing full-cycle rig operations for high-specification rigs up to 3000 HP. This includes leading multi-disciplinary crews and managing complex daily logistics to deliver high-risk projects on time and within budget. I have advanced proficiency in designing Drilling and Workover programs, incorporating critical well integrity principles and detailed offset well analysis. Furthermore, I possess extensive experience supervising technical well services and interventions. This includes cementing operations, DST operations, ESP installations, and Coiled Tubing campaigns involving nitrogen lifting and acid stimulation. I am also highly skilled in complex fishing and milling operations. My role often encompasses commercial and contracts management, where I handle tendering processes for rigs and mud services, negotiate LSTK and Day Rate contracts, and enforce rigorous contractor quality via audits and SQMs. Finally, I ensure all projects adhere to international standards such as API, NORSO D-10 and ISO 16530 to guarantee long-term well integrity.

IWCF Level 4. Landmark Suite (COMPASS, WellPlan, WellCAT). HPHT/Deep Well Design H2S/CO2. Expert in Well Control, NPT reduction, ESP, DST, & Rig Audits. Hot Eng & Schlumberger school.

## Education Summary

Course	University	Passing Year	Country
Bachelor in Petroleum Engineering	Al-Baath University	2003	Syria

## Career Summary

Position	Employer	Country	From	To
Cementing Engineer	Schlumberger	Saudi Arabia	08/2004	08/2006
Senior Cementing Engineer	Schlumberger	Yemen	08/2006	12/2007
Senior Expert Well Engineer	OMV	Yemen	01/2008	04/2024
Senior Wells Engineer & Well operations Team leader	Anton	Iraq	04/2024	11/2025
