## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Ensured compliance with local, national, and international EHS regulations, standards, and best practices. Developed, implemented, and monitored EHS policies, procedures, SOPs, and safe work systems across manufacturing and industrial environments. Conducted Hazard Identification & Risk Assessments (HIRA) and implemented effective risk control and mitigation measures. Led fire safety and emergency response programs, including firefighting systems (hydrants, extinguishers, FM-200, fire pumps) inspection, testing, and maintenance. Planned and executed emergency drills (fire, evacuation, spill response) and maintained Emergency Response Plans (ERP). Delivered EHS training programs including toolbox talks, PTW, fire safety, spill response, confined space, working at height, and contractor safety induction. Enforced Permit to Work (PTW) systems for high-risk and non-routine activities. Conducted routine safety inspections, audits, and safety walks; identified non-conformities and ensured timely CAPA closure. Investigated incidents, near misses, unsafe acts, and unsafe conditions; performed root cause analysis and prepared detailed reports. Supervised contractors and vendors to ensure compliance with EHS requirements and site safety rules. Maintained EHS records, reports, KPIs, and safe man-hours statistics. Supported internal and external audits (ISO 45001 / ISO 9001) and continuous improvement initiatives. Collaborated with cross-functional teams to promote a strong safety culture and improve workplace safety performance. Core HSE & Technical Skills: HSE Regulatory Compliance (Local & International)

Diploma in HSE , IOSH v-5.0, ISO 45001-2018, ISO 9001-2015 & other HSE ,Fire and safety ,workplace courses around 34 certification
