## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

A results-driven leader with 23 years of experience in the oil and gas industry, director of operations and business Manager, most recently served as Halliburton's Regional Manager for Integrated drilling Projects Management in the Asia Pacific. My career has spanned various roles, from Drilling engineer, and Wellsite supervisor to wells Engineering and Operations Manager, up to Senior Region Manager, where I have successfully managed well operations, multi-national teams, rigs and service contractors with a proven track record in performance improvements and business growth across both NOC and IOC firms. Key Achievements 1. 2. 3. 4. Strategic Wins: Secured significant contracts in key markets, including: a. \$210M with ONGC in India for Integrated off-shore drilling Operations. b. \$120M with HESS Malaysia in Southeast Asia. c. \$220M bid award with PLN for Geothermal drilling in Indonesia Profit Improvement: Enhanced business profit by 5% through a performance-driven culture. Contracts Optimization plan (COP): Improve complex project performance in Oman and Iraq by 5% and 10% respectively, through Value Stream map (VSM), cost optimization and resources reallocation. Market Expansion: Successfully entered new markets in Taiwan (CNPC), the Philippines (PNOC), and Australia (Finder Energy) for provision of integrated services (LSTK). Leadership Philosophy I promote an ACE culture (Accountability, Communication, and Excellence of Operations) and lead through a philosophy of 4Ps (People, Process, Partners, Platforms/Technology) to drive performance and advanced Operating Models. Believe in fostering innovative technologies, digital transformation and Continuous Improvement (CI), while ensuring operational excellence through strict compliance with QHSE standards. Education • Executive Business Leadership, Texas A&M University • Project Leadership, Cornell University • Petroleum Engineering (BSC), Suez University. I believe my experience and insights could contribute significantly to our shared goals. Wells Engineering and Operations Management, Integrated Projects Management ( LUMP SUMP TURNKEY- LSTK) expert. 23 years international experience including 13 years in GCC countries with Aramco, KOC, PDO, Iraqi CO's Holding GCC residency and can move around in MENA as needed with no restrictions . Role: 1- Regional Manager, Projects Management (wells) 2- Director of operations, Drilling and well intervention 3- Sr. Projects Manager 3- Drilling Manager 4- Wells Engineering roles Thanks

Problem solving Well Engineering Operations Management Complex and large scale projects Profits and loss Planning and forecasts Continue improving ( CI)
