## Personal Information

<b>Candidate id</b>	6430
<b>Name</b>	Ahmed
<b>Date of Birth</b>	1985-09-19
<b>Salary (in USD)</b>	3000/Per Month
<b>Industry</b>	Drilling / Rig
<b>Sub Industry</b>	Rig Electrician
<b>Nationality</b>	Egypt
<b>Primary Language</b>	Arabic,
<b>Secondary Language</b>	English,
<b>Total Years of Experience</b>	14

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Responsible for planning, supervising, and safely executing drilling operations on a rig while ensuring targets are met on time, within budget, and in compliance with regulations. Core Responsibilities

1. Safety & Compliance
  - Ensure HSE policies are fully implemented and followed on the rig
  - Lead and participate in toolbox talks, risk assessments (JSA/JHA), and safety meetings
  - Ensure compliance with local regulations, company standards, and industry best practices
  - Stop operations if unsafe conditions exist (Stop Work Authority)
2. Drilling Operations Management
  - Supervise day-to-day drilling, casing, cementing, logging, and well control operations
  - Ensure operations follow the approved drilling program
  - Monitor drilling parameters (ROP, WOB, RPM, mud properties, hydraulics)
  - Manage well integrity and well control at all times
  - Oversee BOP operations, testing, and certification
3. Well Planning & Execution
  - Review and contribute to well design and drilling programs
  - Coordinate with drilling engineers to optimize performance
  - Identify risks and implement mitigation plans
  - Approve changes to the drilling program when required
4. Contractor & Crew Supervision
  - Act as the company representative on the rig
  - Supervise drilling contractor, service companies, and third-party personnel
  - Ensure contractors meet performance, safety, and contractual requirements
  - Resolve operational issues and conflicts on site
5. Cost Control
  - Monitor daily drilling costs and time usage
  - Approve service tickets, materials, and equipment usage
  - Minimize non-productive time (NPT)
  - Report cost-impacting events to management
6. Reporting & Communication
  - Prepare and submit daily drilling reports
  - Communicate progress, risks, and incidents to onshore management
  - Report incidents, near misses, and equipment failures
  - Maintain accurate operational records and documentation
7. Equipment & Materials Management
  - Ensure drilling equipment, tubulars, and tools are fit for purpose
  - Verify certification of critical equipment
  - Coordinate logistics for materials, chemicals, and spares
  - Ensure proper handling and storage of equipment
8. Emergency Response & Well Control
  - Lead well control and emergency response on the rig
  - Ensure crew competence in well control procedures
  - Conduct and participate in well control drills
  - Coordinate with shore base and emergency teams during incidents

Typical Authority Level

- Can halt operations for safety or technical reasons
- Approves operational changes within company guidelines
- Acts as final on-site decision-maker during drilling operations

IADC Well Control ,  
IWCF well Control ,  
IWCF well intervention,  
NEBOSH IGC ,  
Stuck pipe , IADC  
Rig safety

## Education Summary

Course	University	Passing Year	Country
Petroleum Engineering	Suez Canal University	2011	Egypt

## Career Summary

Position	Employer	Country	From	To
Rig HSE Engineer	ECDC	Egypt	10/2011	10/2013

<b>Position</b>	<b>Employer</b>	<b>Country</b>	<b>From</b>	<b>To</b>
Drilling Supervisor	Khalda Petroleum Company	Egypt	02/2014	01/2026
