Industry	Maritime
Sub Industry	Diving
Nationality	Ukraine
Primary Language	English,
Secondary Language	Spanish ,
Total Years of Experience	15

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

A results-driven Master Mariner with over 15 years of experience execution & commanding ultra-deepwater drillships and other types of offshore assets and EPCI projects in high-pressure environments. Beyond the bridge, I specialize in the strategic oversight of complex marine operations, focusing on operational excellence, multi-million dollar budget management, and strict regulatory compliance (USCG, BSEE, ISM). Throughout my career, I oversaw vessels operations for \$1.5B+ assets, directed technical maintenance programs and managed vendor relationships for critical spares, ensured 100% compliance with International Safety Management (ISM) and USCG OCS regulations. As well as have successfully spreadheaded diverse crews of 450+, managed complex dry-dock, reactivation / preservation projects, and maintained a 100% safety record during high-risk drilling campaigns. I am now transitioning my expertise to shore-based management, where I can leverage my deep technical knowledge to drive fleet efficiency and safety culture from the corporate office. Always looking to contribute to high-performing teams and projects where safety, innovation, and operational excellence are top priorities.
