Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Operating drilling equipment

Drillers operate drilling and hoisting equipment to drill wells for oil, water, natural gas, or minerals. They also maintain and repair the equipment.

Ensuring safety

Drillers are responsible for ensuring that safety procedures are followed and that all workers are following company and legal regulations. They may hold safety meetings, test workers' knowledge of safety rules, and run emergency drills.

Maintaining records

Drillers prepare, organize, and maintain inspection records. They also accurately record all drilling data.

Managing crews

Drillers may manage two to three crews of rig workers.

Completing documents

Drillers are responsible for getting the necessary documents completed for all crew members, equipment checks, and various permits.

Monitoring operations

Drillers monitor multiple parameters to ensure smooth operation and quick reaction to any issues. They also stay within specified timelines.

Opito Bosiet
